PROFESSIONAL SUMMARY

Data Analytics enthusiast with hands-on experience in **SQL, Python, Excel, and Power BI**, with a strong foundation in data cleaning, exploratory data analysis, dashboard development, data visualization, and KPI reporting. Currently undergoing practical training in **Python and Data Analytics at QSpiders**. Experienced in analyzing datasets to identify trends, business insights, and performance indicators. Seeking a Data Analyst Internship to apply analytical skills and contribute to data-driven decision-making.

EDUCATION

Vidya College of Engineering **2023 – 2027**

Bachelor of Technology (B.Tech), Computer Science Engineering

Dr. A.P.J. Abdul Kalam Technical University, Lucknow **CGPA Equivalent: 79.9%**

Netaji Subhash Inter College **2020 – 2023**

Senior Secondary Education **Intermediate: 84.8%** | **High School: 82.8%**

TECHNICAL SKILLS

Programming	Python, C, HTML, CSS
Data Analytics	SQL, MySQL, Excel, Power BI, Data Visualization
Python Libraries	Pandas, NumPy, Matplotlib, Seaborn, Plotly, Pathlib
Excel	Pivot Tables, Power Query, Lookup Functions, Macros
Analytics Concepts	EDA, Data Cleaning, Business Analytics, KPI Reporting
Tools	Git, GitHub, VS Code, Jupyter Notebook

EXPERIENCE

Python & Data Analytics Trainee – QSpiders **Jul 2026 – Present**

- Undergoing practical training in **Python and Data Analytics**, focusing on data analysis and problem-solving.
- Developing hands-on skills in data manipulation, exploratory analysis, and visualization using Python.
- Working with Python libraries and analytical techniques to understand and analyze datasets.
- Strengthening knowledge of **SQL, Excel, and data analytics concepts** through practical exercises.

Data Entry Operator – Sirohi Scan Center, Meerut **Jul 2025 – Oct 2025**

- Entered and maintained records with a high level of accuracy and consistency.
- Verified data to ensure completeness and maintained confidentiality of records.
- Assisted with digital documentation and reporting workflows.
- Organized and updated operational records efficiently.

PROJECTS

Customer Behaviour Analysis **Python | SQL | Power BI**

- Analyzed customer purchasing data using **Python and SQL** to identify purchasing patterns and customer behavior.
- Performed data cleaning and exploratory data analysis to understand customer trends and sales performance.
- Used SQL queries, aggregations, and analytical techniques to extract meaningful business insights.
- Developed an interactive **Power BI dashboard** to visualize KPIs, customer behavior, sales trends, and performance indicators.

Netflix Analysis **Python | SQL**

- Analyzed Netflix content data using **Python and SQL** to identify trends and patterns.
- Performed data cleaning and exploratory data analysis using Python.
- Used SQL filtering, grouping, aggregations, and analytical queries to explore the dataset.
- Analyzed content distribution, genres, and release trends and visualized key findings using Python.

Pizza Hut Sales Analysis **SQL | Excel**

- Analyzed transactional sales data using SQL queries, joins, subqueries, and aggregations.
- Identified revenue trends, top-selling pizzas, customer behavior, and key business KPIs.

Student Fees Management System **Excel**

- Developed an Excel-based system to track student payments and pending dues using formulas and data validation.
- Created dashboards and automated reports for easier monitoring of fee collection.

Habit Tracker Dashboard **Excel**

- Created an interactive dashboard using Pivot Tables, Conditional Formatting, and Charts to monitor daily habits and productivity trends.

Earthquake Data Visualization **Python | Pandas | Matplotlib | Pathlib**

- Performed exploratory data analysis on earthquake datasets using Pandas and visualized magnitude distribution and frequency trends with Matplotlib.
